

New York County Lawyers' Association Diversity Statement Bar Association Signatories

The undersigned bar associations support efforts to increase diversity in the legal profession. We call upon other bar associations to join us in taking steps to implement such efforts. We believe that bar associations should take action to insure that their leadership and committees are diverse. Examples of other ways in which bar associations can promote diversity in the legal profession include (1) forming committees to study and report on diversity in the profession; (2) holding public forums; (3) conducting CLE courses; (4) developing mentoring programs; (5) providing networking opportunities; and (6) convening meetings of law firms and other legal organizations to discuss diversity.
